3. Arriving by car:

Duration: about 20 minutes from Luxembourg City or 30 minutes from Luxembourg Airport (without traffic jam).

If you travel by car, please take the highway A4 in direction Esch-sur-Alzette, and stay on that road until it ends at the roundabout called "Raemerich". Do not leave the A4 too early! Simply follow the A4 until it ends, then follow the signs to "Belval" at the large roundabout.
On the campus, unfortunately, there are no signs leading the way to the maison du savoir university of luxembourg. Please use the following plan to orientate on the campus.
The House of Biomedicine (maison du savoir university of luxembourg I) is directly next to the old blast furnace site, close to the *red* Dexia buildings. The building is a bit hidden. It is a six floor modern white building.
Biotech II (maison du savoir university of luxembourg II) is right next to ADEM (Agence pour le développement de l'emploi / Employment Development Agency) and across the street from Southlane Towers.
